

## **MGA 9**

### **BRONZE GOLD RED SCRAMBLE FORMAT**

Each member of a three man or four-man team will tee off on the 10th hole. If you are on a three-man team, see the tournament chairman for special instructions.

Holes 10 through 12 will be played from the Bronze Tees

Holes 13 through 15 will be played from the gold Tees

Holes 16 through 18 will be played from the red Tees

The team will select the best tee shot and all team members will hit their own ball from within one club length of that spot.

On the tee shots only, each team members drive must be selected at least twice as the best tee shot.

Each team member will continue hitting from the best team members shot until a ball is in the hole.

Handicaps will not be used for scoring. Just enter the team gross score per hole.

The golf genius system will add all holes together in order to determine the team score. And finally, it will identify the first second and third place teams and the last place team.

A breakfast ball on the first tee only is allowed and two anytime mulligans may be used for this format. If you take a breakfast ball or anytime Mulligan that will be your ball in play you do not get to choose between the shots you hit
